COMPANY PROFILE

ShieldRoof Services is a California-licensed roofing contractor providing assessment, repair, maintenance, emergency protection, and replacement services for residential, commercial, industrial, and managed properties across Southern California. Work is organized around documented scopes, controlled site execution, clear communication, and accountable closeout.

CORE COMPETENCIES

- Roof condition assessments, aerial-supported observations, and photo documentation
- Leak diagnosis, targeted repair, and 24/7 emergency tarping
- Roof replacement: tear-off, deck-condition review, underlayment, ventilation, flashing, and installation
- Commercial and industrial flat and low-slope roofing service
- Concrete and clay tile, architectural shingle, flat, and low-slope systems
- Planned maintenance, capital planning, permits, staging, supervision, and closeout records

DIFFERENTIATORS

- Written scope, materials, assumptions, alternates, exclusions, and warranty terms before construction
- One accountable project lead from assessment through completion
- Occupied-site planning for access, tenants, landscaping, hardscape, and daily cleanup
- Bilingual English-Spanish communication for owners, occupants, and field teams
- Verifiable California license, bonding, insurance, and BBB accreditation
- Workmanship warranty

PAST PERFORMANCE / REPRESENTATIVE EXPERIENCE

- Company website represents more than 4,000 roofing projects completed across Southern California
- Experience serving homes, estates, owner-users, retail, office, industrial, multifamily, HOAs, and managed properties
- Comparable project references and supporting project documentation are available upon request
